

**Narelle Lyon, 33  
ACCOUNT MANAGER**  
"I found the Omnilux Revive treatment gave a smooth finish to my blemish-prone skin. My skin feels alive and looks healthier, softer and deeply hydrated."

**Pre-treatment**  
skin age 33  
moisture level 4

**Post-treatment**  
skin age 31  
moisture level 8

**Linda Arno, 40, RECEPTIONIST**  
"Since undergoing light therapy I have received many positive comments. My skin feels so much softer and smoother. And the 'blotchy' look around my nose seems to have disappeared."

**Pre-treatment**  
skin age 42  
moisture level 8

**Post-treatment**  
skin age 36  
moisture level 9

**Denise Townley, 52, ADVERTISING BOOKINGS COORDINATOR**  
"I couldn't be happier with the results. My complexion is so much clearer and more illuminated. Facial lines are not so obvious and my skin feels as though it has been lifted and nourished."

**Pre-treatment**  
skin age 52  
moisture level 6

**Post-treatment**  
skin age 50  
moisture level 10

**Jenny Smith, 53  
RECEPTIONIST**  
"During the course of light therapy, my skin's moisture level increased from virtually none to the highest recorded level. I was very impressed with the results and continue to receive compliments on how good my skin looks."

**Pre-treatment**  
skin age 54  
moisture level 1

**Post-treatment**  
skin age 50  
moisture level 16

# LIGHT FORCE

## IN THE FIGHT AGAINST THE AGEING PROCESS, OMNILUX REVIVE SHEDS SOME LIGHT ON HOW TO KEEP YOUR SKIN LOOKING YOUNGER FOR LONGER

It might look like something from the latest science fiction movie set, but this gentle facial treatment noticeably improves the appearance of your skin after just one treatment.

Omnilux Revive is not a laser but harmless non-surgical light therapy. The pure non-laser light source, that is not ultraviolet or infrared light, works to deeply hydrate and plump up the skin. "Think of it as a deeper massage for the area of the skin that therapists hands can't reach," says Mandy Gray, Managing Director, Doctors Formula. "Clients experience a pleasant, warm feeling under the light beam, as it surrounds the face with thousands of light emitting diodes radiating pure red light. It is much

like lying on a beach in the sun for 20 minutes, without the harmful UVA, UVB or infrared radiation," adds Gray.

To test the effectiveness of this innovative cosmetic treatment, these women underwent six treatments using Omnilux Revive over a three-week period. Prior to starting the trial, each participant expressed anxiety about the appearance of their skin: dehydration, visible wrinkles and a blotchy complexion were common concerns.

A skin scanner and magnification were used to assess the skin before, during and after the trial. The results were amazing and showed a very clear pattern among all the participants who were delighted with their skins' clearer, brighter and smoother appearance. The skin appeared to plump up resulting in a more radiant and younger looking complexion. The purity and effectiveness of the light therapy means that it can be used alone or with a variety of quality skincare products to further enhance their effect.

For further information on Omnilux Revive light therapy, contact Doctors Formula toll-free 1800 808 993.

\*Pre- and post-treatment levels were recorded in a range between 1 (lowest) and 16 (highest).
